

WIESEL® System Flat-Net

WIESEL Flat-Net provides more working space for the use of technical equipment

FRUIT SECURITY®
SYSTEMS FOR PROFESSIONALS

The WIESEL System Flat-Net perfectly protects against sun and hail.

The WIESEL System Flat-Net makes row distances of up to 11 m and clearance heights to a maximum of up to 5 m possible.

Very sturdy construction by means of tested anchoring in the soil. The WIESEL System Flat-Net is wind and rain permeable and solid at wind speeds of up to 100 km/h (62 mph).

Shadow formations in various categories, depending on the knit density:
8 / 13 / 18 / 30 / 50 / 90%
